## PROFILE

Creative and solution-oriented Software Engineer with a deep interest in Web3. Proven track record of creating and implementing successful front-end and back-end web applications. I'm looking to bring my skills to a tech company with global reach.

## EMPLOYMENT HISTORY

### Software Engineer at 100devs, Los Angeles

January 2022 — Present

- I collaborated with a team of developers to build modern and responsive web applications using best practices.
- Built semantically structured full-stack web applications
- Applied agile methodologies like Scrum for project management

#### Recent Projects:

**Chow Coffee Co. (Fullstack Web App)** – Cashier can take coffee orders from customers with their names. Baristas can login to the app and see orders that have been made and mark them as complete. Orders that have been completed will note which barista completed the order.

**Happy Safety Notes (Fullstack Web App)** – Staff can login to their profile to log the minutes for daily safety meetings. A new Minutes log can be added through an input, which can then be edited within the logged-in staff's profile.

**Other Projects:** Space Club OAU StarGazers Society APOD Web App with NASA API integration, On-demand background colour changer for Partnered Twitch streamer, 100devs Agency Calculator, and many more

### Full Stack Web Developer at DB - Ezekiel's Consulting, Ife, OS

April 2021 — Present

Created full-stack web applications and static websites for different clients across small and medium-sized businesses. Also, consulted on SEO and social media strategy. Some clients included:

- SPACE CLUB OAU ([spacecluboau.com.ng](http://spacecluboau.com.ng))

## EDUCATION

### Mechanical Engineering, Obafemi Awolowo University Ile-Ife, Ife, OS

August 2015 — Present
